## PASTORS DETHRONE KELLY.

San Jose Ministers Decide Against His Remaining at the Head of Their Union.

[BY A. P. DAY WIRE TO THE TIMES.] SAN JOSE (Cal.) June 18.—At a meeting of the Pastors' Union of this city this morning Dr. Claude Kelly was by resolution dethroned as president of the union. Dr. Kelly has been under fire for some time because of alleged indiscreet conduct in his church, charges having been brought by a minority faction of the church membership.

These rumors and charges are offered by the pastors' union as the reason for the action today. The resolutions adopted disclaim passing judgment, however, upon the merits of the charges. Several deacons of the church were present at the session, which was held behind closed doors. They stated that the evidence before their trustees was not considered sufficient evidence to warrant Kelly's discharge.

The second highest honor was won by Payne Elliott of Eugene, forty-one seniors earned the degree "cum laude."

## HONOR INGLEWOOD GIRL.

Miss Mariel Watkins Gets Diploma From University of Oregon Without Examination.

[BY DIRECT WIRE TO THE TIMES.] UNIVERSITY OF OREGON, EU- GENE (Or.) June 18.—[Exclusive Dispatch.] The highest honor within reach of a graduate of University of Oregon has been won by a girl, and under the unusual circumstances that the faculty in recognition of her uniformly superior work and the certainty that she would have passed, granted her degree after a threatened attack of pneumonia had prevented her from taking her final examination.

Muriel Watkins of Inglewood, Cal., is the girl thus honored.

She is the only member of the class which was graduated today to receive the distinction of "magna cum laude."

The second highest honor was won by Payne Elliott of Eugene, forty-one seniors earned the degree "cum laude."

San Jose Lawyer Held.

Attorney Accused of Embezzlement Must Answer to the Charge in Superior Court.

[BY A. P. DAY WIRE TO THE TIMES.] SAN JOSE, June 18.—Upon the testimony of three witnesses who presented a chain of evidence showing the embezzlement of the specific sum of \$2,000, Attorney Frank L. Driscoll today was held to answer to the charge before the Superior Court. He is in jail under \$10,000 bail.

Police Scout Report.

ROBERT DAY UNKNOWN.

[BY A. P. DAY WIRE TO THE TIMES.] SAN FRANCISCO, June 18.—Chief of Police White scouted the idea that either he or Attorney Hickok "were responsible" for the death of Robert Day. "The name is not Italian, and I know of no person of such a name. That name has not appeared at all in the graft investigation and so far as I know there has not been any bunco men operating here who were known as Robert Day."

Schall Not Indicted.

SAN FRANCISCO BUREAU OF THE TIMES, June 18.—[Special Dispatch.] The federal grand jury has refused to return an indictment against George H. Schall, former sergeant in the United States army, who was accused of having killed his wife and three children to collect on their life insurance policies.

Two Firemen Killed.

High School Valued at Over a Quarter of a Million Dollars Destroyed in Minneapolis.

[BY A. P. NIGHT WIRE TO THE TIMES.] MINNEAPOLIS, June 18.—Two firemen were killed and five others seriously injured in a fire that destroyed a high school here today. The loss is placed at \$275,000.

## ARREST FOUR EDITORS.

Socialist Agitator Charges Criminal Liability to Proprietors of a Seattle Newspaper.

[BY A. P. DAY WIRE TO THE TIMES.] SEATTLE, June 18.—Four editors were arrested today on secret indictments returned last night by the special grand jury. Col. Alden J. Blithem, editor of the Seattle Times, and his son, Clarence B. Blithem, managing editor of the same paper, were arrested on a charge of having criminally libeled Joseph Jarvis, Socialist agitator, last October by printing an article alleging that he had absconded with funds belonging to the party.

Leroy Sanders, editor of the Seattle Star, was arrested on a charge of having criminally libeled a county official during the agitation which resulted in the calling of the grand jury to investigate charges against County Commissioners and Edward Clayton, Sr., editor of the Patriot, a weekly paper, to accused of having criminally libeled the judges of the Superior Court by making attacks on their character. All of the defendants were released on their personal recognizance.

WOODMEN TO SAN FRANCISCO.

JACKSONVILLE (Fla.) June 18.—[By A. P. Night Wire.] San Francisco will be the meeting place for the Woodmen of the World of the World in 1915, the Pacific Coast city winning over St. Paul, Minn., by a vote of 126 to 32.

TIMES, June 48.—[Special Dispatch.]

nia, independent, introduced in the Senate today a bill providing for the establishment of a tariff commission. Under the terms of the bill the commission would have nine members and

would be constituted similarly to the Interstate Commerce Commission. Its powers would be very much the same, except that it would not have the right to put any rates into effect or to make new tariff duties.

What it decided upon would be turned over to Congress in the form of a report or bill. Congress would then use its own judgment as to enactment of legislation.

The members of the board would have their central headquarters in

Washington and from time to time would make investigations in various parts of the country just as the Interstate Commerce Commission does at present. A report would be required from the board once a year.

and in the meantime, any persons who felt that their business was being harmed by rates that were too low or interests that felt that rates were too high, would be granted a hearing by the Tariff Commission.

Senator Works said he would make a very hard fight to have his bill passed at the present session of Congress as an amendment to the tariff bill and that he is hopeful of suc-

Mr. Works may even seek the support of President Wilson, who is known to be desiring that investiga-

times be made as to the working of the rates provided by the Underwood bill and it may be the President will accept the Works bill or something similar to it as the machinery for obtaining the desired end.

Over One Hundred Collectors Will  
Be Dropped by the First of Next  
Month.  
[BY A. P. NIGHT WIRE TO THE TIMES.]  
WASHINGTON, June 12.

Department officials have practically abandoned hope of securing from Congress a postponement of the customs reorganization until January 1, 1914, and are preparing to effectuate this sweeping reform on July 1.

By reducing the customs districts from 165 to forty-nine, more than 100 collectors of customs will be legislated out of office. The Republicans among the forty-nine who remain will hold over until their terms expire or until a general election.

chooses Democrats to succeed them. A collector will be in charge of each district, and a deputy collector in immediate charge of each port. In nine cases out of ten it is said that the present special deputy collector in each port will be made the deputy collector.

This image shows a vertical cross-section of a book, focusing on the edges of the pages. The pages are tightly packed, creating a dense, textured appearance with many fine horizontal lines. The left side of the image is lighter, showing the binding or the inner edge of the book block, while the right side is dark, representing the outer edge or the shadow of the book. The overall effect is one of depth and texture, highlighting the physical nature of the printed material.

**WESTMORELAND PLACE** presents an unusual opportunity for investment. It is the highest class Hotel and Apartment House property in Los Angeles, without exception.

The approaches that lead to the property add much to its intrinsic value, viewed from an investment standpoint. Twelve minutes by car from the business center—via Pico or West Eleventh street line. The Pico street route, down Broadway and Main, and out Pico to Vermont, passing Westmoreland Place, is one of best-lighted thoroughfares in the world.

The Vermont avenue "Cross-town" line passes the Western boundary of the property—this being the only Cross-town line connecting the Northern and Southern limits of the Western part of the City.

The value of Pico street property for business purposes has shown a wonderful increase during the past five years. Lots in the Westmoreland Place are today worth several times the original prices for which they could have been purchased; but it is within the next five years that the greatest advance may be expected.

The owners have decided to sell a limited number of sites in Westmoreland Place for high-class Hotels and Apartment Houses; with the understanding that structures to be erected must conform in style and character to the established elegance and dignity of the property. These Hotel and Apartment House sites, as well as residence lots, can be purchased now at prices that insure splendid returns from the investment.

In order to estimate the wonderful possibilities for profit that an investment in Westmoreland Place offers, one has but to look over the records of recent transfers of property which only a half-dozen years ago was on the outskirts of the business section, as Westmoreland Place is today. For further particulars apply to the undersigned:

## YOU EARN IT; HE SPENDS IT.

Gov. Johnson in the Role of Lord Bountiful.

Nearly Three Quarters of a Million His Portion.

And He'll Blow It to Do Himself Most Good.

### Restrictions

Westmoreland Place will be protected by reasonable but ample building restrictions, in words and form similar to the following:

**FIRST**—No building shall be erected upon any lot within 50 feet of the front line of said lot; and no building shall front, other than on either of the two private driveways running north and south from Pico to Tenth street.

**SECOND**—No fence or wall on the side line of said property in front of a greater height than four feet from the ground.

**THIRD**—No building of less than three full stories above the basement shall be erected or placed upon said premises, and no building shall be erected or placed upon said premises not conforming to either a Class "A" building; or a Class "B" building; or a Class "C" building; as outlined and defined by the ordinances of the City of Los Angeles. Nothing in the foregoing shall be construed as prohibiting the erection of a one-story garage.

**FOURTH**—Nothing in the foregoing shall also be construed as prohibiting the erection of a one-story or a two-story Class "C" building, provided such building be a residence designed for use as a single residence only.

**FIFTH**—No building shall be erected upon said premises, or allowed to be placed upon any of said property, with a lot frontage of less than one hundred feet, and no building shall be erected upon said premises nearer to the side lines of the lot improved than fifteen feet.

(BY DIRECT WIRE TO THE TIMES.)  
SACRAMENTO, June 18.—[Exclusive Dispatch.] Gov. Johnson has approved special appropriation bills giving himself directly or indirectly additional patronage to the tune of about \$650,000, unless some of the bills which create new jobs, new commissions and new boards are held up by the exercise of the referendum. Eighteen bills enacted by the last Legislature creating new jobs to be filled by gubernatorial appointment, or reorganizing existing boards, for the distribution of \$600,000 of political plums.

The establishment of fourteen new Superior Court departments in various counties of California, under the executive about \$27,500 in additional patronage for the coming year. Commissions created and the appropriation provided for each for the next biennial period, are:

Civil Service Commission—Three members at \$500 a year and two as employees as the commission deems fit, total appropriation, \$50,000.

State Water Commission—Three members at \$500 a year and two as employees as the commission deems fit, total appropriation, \$50,000.

State Immigration Commission—Five members empowered to employ as many assistants as thought necessary, total appropriation, \$50,000.

Industrial Accident Commission—Three members at \$500 a year, and as many other assistants as the commission thinks necessary, total appropriations to carry out insurance and liability scheme, \$100,000.

Minimum Wage Commission—Five members, four appointed and the labor commissioner to be an ex-officio member. Commission may employ as many assistants as thought necessary, total appropriation, \$20,000.

State Board of Education—Five members, four to be appointed, and the superintendent of public instruction to be an ex-officio member. Three commissioners of education at \$4000 a year, members of board to receive \$15 a day when in session and traveling expenses. Total appropriation, \$40,000.

Blue Sky Act, creating a commissioner of corporations at \$5000 a year authorized to employ as many assistants as necessary, total appropriation, \$10,000.

San Jose Harbor Commission—Three members at \$1000 a year, and an attorney at \$1000, a secretary at \$1200 and a chief wharfinger at \$1000, total appropriation, \$5500.

Old Age and Pension Commission—Three members to receive hotel and traveling expenses; total appropriation, \$2000.

Nurses Registration Board: Board of Health empowered to appoint graduate nurse and fix her salary, appropriation \$5000.

Legislative Counsel Bureau: One appointed by Governor, two by Senate and two by Assembly. If selections are not made by Legislature, Governor shall make appointments. The board may fix the salaries of the employees, total appropriation \$20,000.

Board of Optometry: Five members, appropriation \$10,000.

Rural Credit Commission: Three members, appropriation \$3000.

Smelter Waste Inquiry Board: State veterinarian, State horticulturist and secretary of health board, appropriation \$5000.

Viticultural Commission: Nine members and a secretary at not more than \$200 a month, appropriation \$7500.

Attorney for Labor Bureau: Salary for two years \$4800.

Weights and Measures Inspector at \$3000 a year. Inspector may appoint not more than six deputies at \$1500 a year. Total appropriation \$40,000.

Gov. Johnson in the Role of Lord Bountiful.

Nearly Three Quarters of a Million His Portion.

And He'll Blow It to Do Himself Most Good.

(BY DIRECT WIRE TO THE TIMES.)  
SACRAMENTO, June 18.—[Exclusive Dispatch.] State Controller Nye, in a statement today, asserts that his estimate to the Legislature of the State's revenue for the coming biennial period represented a net revenue after deduction had been made from the gross revenue to pay bond refunds. To correct any impression that might have been created, he declares that the gross revenue for the coming biennial period will approximate \$21,000,000, while the net revenue, after \$1,400,000 has been paid out to refund bonds as provided by the Legislature, will equal approximately \$20,000,000.

Legislative appropriations signed by the Governor aggregate \$20,321,218 in addition about \$11,700,000 must be expended for State aid to elementary and high schools and the university, besides increasing interest on highway and harbor improvement bonds.

Controller Nye has not yet completed a summary of the appropriation bills signed by Gov. Johnson and thus far has no definite statement to make relative to whether the revenue will meet the obligations incurred by the executive pen in approving so many special appropriation bills.

Gov. Johnson in the Role of Lord Bountiful.

Nearly Three Quarters of a Million His Portion.

And He'll Blow It to Do Himself Most Good.

(BY DIRECT WIRE TO THE TIMES.)  
SACRAMENTO, June 18.—[Exclusive Dispatch.] State Controller Nye, in a statement today, asserts that his estimate to the Legislature of the State's revenue for the coming biennial period represented a net revenue after deduction had been made from the gross revenue to pay bond refunds. To correct any impression that might have been created, he declares that the gross revenue for the coming biennial period will approximate \$21,000,000, while the net revenue, after \$1,400,000 has been paid out to refund bonds as provided by the Legislature, will equal approximately \$20,000,000.

Legislative appropriations signed by the Governor aggregate \$20,321,218 in addition about \$11,700,000 must be expended for State aid to elementary and high schools and the university, besides increasing interest on highway and harbor improvement bonds.

Controller Nye has not yet completed a summary of the appropriation bills signed by Gov. Johnson and thus far has no definite statement to make relative to whether the revenue will meet the obligations incurred by the executive pen in approving so many special appropriation bills.

**FOUR HUNDRED BILLS PAID.**  
Pocket Veto Squelches Pet Measures Forwarded Through Legislature by Machine in Return for Votes.

(BY A. P. DAW WIRE TO THE TIMES.)  
SACRAMENTO, June 18.—More than four hundred bills sent to the Governor by the Legislature were vetoed by him. Here are some of the bills which he vetoed:

The Guiberson milk bill, providing for milk, cream and dairy standards.

State Supervision of dairies and stock raising bureau.

The Senator Thomas bill providing \$500,000 to the payment of premiums on the sale of San Francisco bonds.

Improvement bonds.

Wright bill, appropriating \$100,000 to be used in paying the cost of the sale of State highway bonds.

Among other bills vetoed by the Governor were the Wall bill providing for the payment of premiums on the sale of San Francisco bonds.

The Senator Thomas bill providing \$500,000 to the payment of premiums on the sale of San Francisco bonds.

Improvement bonds.

# HARVARD WINS GREAT GAMING

**OLD ELI DOWN IN FOURTEEN INNINGS.**

Great Crowd Sees Crimson Men Come Back and Snatch Victory from the Black-Error Spills Base, then Hardwick Drives in Winning Run with Terrific Clout to Left.

(BY A. P. NIGHT WRITER TO THE TIMES.)

CAMBRIDGE, (Mass.) June 18.—The baseball nines of Harvard and Yale battled for fourteen innings today to a Crimson victory, evening the series, and making necessary a third game. The score was, Harvard, Yale 3.

A closer contest has rarely been fought between the two ancient rivals. The Crimson tied the score at 3 in the fifth and in the last half of the fourteenth, with one man out, and sent lifted a high fly back of wall to base. Cornish dropped ball as Gannett slid into second.

Hardwick then sent the ball far beyond the left fielder, and the run had been good for a home run ordinarily, but Gannett had crossed the plate with the deciding tally when Hardwick reached second. Finishing circuit of the bases, Hardwick ran to a wild ovalen and was carried off by a high fly to center.

The next contest will be played Brooklyn Saturday. Score: Yale, 3; hits, 1; errors, 2. Harvard, 3; hits, 18; errors, 2. Batteries—Brown, Gile and Gannett; Felton and Young.

## GLENDALE CLUB TO SHOOT BLUE ROCKS.

The first annual blue rock tournament of the Glendale Gun Club will be held on the club grounds Sunday, June 23, beginning at 10 o'clock in the morning. There will be six events of twenty birds each, with an entrance fee of \$2, and targets at each place.

There will be a cash prize of \$10 for the high man shooting through the events and the entrance money will be divided 40, 30, 10 and 10. Everyone is invited to be present.

## BIG YELLOWTAIL HOOKED.

AVAILABLE June 18.—While sailing near Seal Rock, United States Fishery Commission, the U. S. Fishery Commission received a button from the U. S. Fishery Commission of the Tuna Club.

With Gen. Murray, Capt. Brown, San Francisco, also brought several good catches to gaff. The two anglers are to remain several days on the island. Gen. Murray is anxious to catch a few more of the "yellowtail," before fishermen and white sea enthusiasts had exceptionally good angling today.

## Hyde Park-Colton Bowling Match.

Two teams which competed in the Ocean Park tournament have decided to play a series of three games at a home and home match. The Lycium contingent is represented by the Colton Cement Company team, consisting of Young, Brown, and Brown, and the Hyde Park team, composed of Brown, Meador, C. Smith, and C. Smith. All of the contestants are well known to the record in the coming match.

## COSTER PUTE OUT.

NEW YORK, June 18.—(By A. P. Night Wire.)—[Special.]—The night here tonight Mike Brock, Cleveland outgrowth Tommy Hoke of Philadelphia; Eddie O'Keefe of Philadelphia; outgrowth, Patsy K. of Newark, and Kid Julian of Brooklyn in the third round. All of the contestants weighed close to 150 pounds.

## SIXTEEN TEAMS ENTERED.

Sixteen teams are already entered for the doubles that will feature tennis tournament at the Los Angeles Country Club on July 7. There will be a prize of \$100 for the winner, and many of the old-time local players will enter just for the practice. The first round will be on the 10th days prior to the tourney.

## CHICAGO IN FRONT.

CHICAGO BUREAU OF THE TIMES, June 18.—[Special.]—Dispersed by Federal Wireless Line. The University of Chicago today was the first to announce the tournament, held by the Intercollegiate Association. Illinois was second and Wisconsin was third.

## MATCH FOR BOB.

SAN FRANCISCO, June 18.—(A. P. Night Wire.) Articles were written by Bob McMillen, a local city and Sallor Petrosky of Oakland for a ten-round bout before Oakland club on the evening of June 18. Toby Irwin will referee.

## PR PRAISE THE AMERICAN POLO TEAM.

(5) LINE TO THE TIMES.)

All in the party had the same thing say about the game—the American team was the swifter, and the best team won. The players offered excuses.

"They were the fastest game I played in," said Capt. Rilton. "The team was taken from its feet by the British army, and the American put up. In the first game the American team started so fast and scored so quickly that before we could counter it was the swiftest playing team I ever saw."

Asked whether he would return next year and attempt to get the American team, he said: "I will not next year. We shall have to try to get to our breath."

L. Lionel James, formerly of the British army and an expert player, was another passenger.

"The big four as you call them," he said, "were so fast that it was impossible for me to play. I never saw and I played polo in for twelve years. I never saw any work done by man or horse. I never knew a player who was not an American team. There is absolutely

Run with Terrific Clout to Left.

(IST A. P. NIGHT WERE TO THE THEM.)  
CAMBRIDGE (Mass.) June 18.  
The baseball nines of Harvard and Yale battled for business tonight in a tie battle at Crimmon village, creating a record, and making necessary a change of the score. The score was Yale 3.

A closer contest has rarely been fought between the two ancient rivals. The Crimson tied the score at 3 to 1 in the fifth and in the last half of the fourth, with one man out. Cornell lifted a high fly back of second base. Cornish dropped the ball and Gannett slid into second.

When Cornell's pitcher, Tom Farlow, pitched the left fielder, it would have been good for a home run ordinarily but Gannett had cramed the plate with the deciding tally when Hardwick reached second. Finishing the circuit of the bases, Hardwick ran to a wild ovation and was carried from the field by exulting graduates. The game was played at Crimmon Brookline Saturday. Score: Yale, 3; hits, 7; errors, 2. Harvard, 4; hits, 10; errors, 2. Barnes—Brown, Clio and Bissett; Felton and Young.

## GLENDALE CLUB TO SHOOT BLUE ROCK

The first annual blue rock tournament for the Glendale Game Club is to be held on the 21st of June.

June 22, beginning at 10 o'clock in the morning. There will be six sets of twenty birds each, with an entrance fee of \$2, and targets at 20 cents each.

There will be a cash prize of \$100 for the winner. The prizes for the first five for the events and the entrance money to be divided 40, 30, 20 and 10. No one is invited to be present.

**HIG YELLOWTAIL HOOKED.**

**FALON, June 18.**—While angling near the mouth of the Murray River, a private Division of the United States Army brought to gaff a yellowtail hooked on a 100 lb. yellowtail. It received a button from the lieutenant tackle class of the Tuna Club.

**FALON, June 18.**—While angling near the mouth of the Murray River, San Francisco also brought aboard good catches to gaff. The two are the first monster yellowtails caught on the island. Gen. Murray is anxious to land the first monster swordfish, a record which he has been waiting for. Enthusiasts had exceptionally good

### Hyde Park-Colton Bowling Match

The Lyceum contingent is represented by the Colson Cement Company team, consisting of Young Stach, Shay, Taylor and Ballard, with a score of 2614 at Ocean Park. Their opponents, the Hyde Park team, composed of Strawn, Meador, C. Smith, Brison and Mackenzie, scored 2583 but feel competent to better it.

record in the coming match.  
**COSTER PUT OUT.**  
NEW YORK, June 18.—[By A.

Night Wire.] In three ten-round contests here tonight Mike Brock, Cleveland outfought Tommy Hou of Philadelphia; Eddie O'Keefe, Philadelphia outpointed Patsy Kl of Newark, and Kid Julian of Syracuse knocked out Joe Coster of Brooklyn in the third round. All of contestants weighed close to

**SIXTEEN TEAMS ENTERED.**  
Sixteen teams are already entered for the doubling that will determine

for the doubles that will feature tennis tournament at the Los Angeles Country Club on July 4. There will be at least two teams from the north and many of the old-time local players will enter just for the practice. The entry list will not close until the 15th.

### **CINCAGO IN FRONT**

CHICAGO BUREAU OF TIMES, June 18.—[Special Dispatch by Federal Wireless Line.] The University of Chicago today won the western intercollegiate golf tournament, held by the Intercollegiate Association. Illinois was second and Wisconsin was third.

**MATCH FOR BOB.**  
SAN FRANCISCO, June 18.—

A. P. Night Wire:] Articles written and signed today by Bob McAllister of the city and Sailor Petroskey of Gea land for a ten-round bout before Oakland club on the evening of J 18. Toby Irwin will referee.

All in the party had the same thing  
say about the game—the American  
team was the swifter, and the host  
team won. The players offered  
excuses.

"They were the fastest games I ever played in," said Capt. Ritson. "O-

team was taken from its feet by a swift game that the American team put up. In the first game the American team started so fast and so quickly that before we could cover we were licked."

next year and attempt to get the  
Capt. Ritson replied with a laugh: "I  
don't want you. We shall have to be

J. Lionel James, formerly of British army and an expert player, was another passenger. "The big four as you call them," he said, "were so fast that it was brutal. It was the swiftest playing I ever saw and I played polo in India for twelve years. I never saw any work done by man or horse. So much praise cannot be given to an American team. There is absolutely

"no doubt that the best team won."

WAR IMPOSSIBLE SAYS JAPANESE.

Representative of Nipponese Government Talks.

Former Consul General Also Denies Jingoism.

White and Yellow Leaders in Fraternity Banquet.

The Japanese-American Fraternity banquet at the Federation Club last night was an unusual affair at which the white and yellow race mingled as members of the great fraternity of men.

The last speaker on a very long program, he briefly voiced his pleasure and appreciation of the kindly and cordial sentiments expressed by all who had preceded him and stated that there is no possible chance for an open break between the United States and his native land, that every effort is being made to continue the kindly feeling that has always existed between the two countries since 1852.

One of the ablest expositions of the red situation as one of the most denouncing talks against the tactics of a "few jingo Californians" was presented by E. C. Bellows, former Consul General to Japan.

Two must teach in the schools that men are not of Los Angeles, of California, or of the United States, but of all the world, and that we matter the race, all men are neighbors," he said.

PEACE TRIUMPH. "We owe much to Japan. Sixty years ago, Commodore Perry awakened that country, brought it from its oriental slumber, intervened in its age of peace and awakened the people out of their agricultural sleep to drive them on. We demanded a peace treaty covering all of the rights of England, Germany, France and other nations having dealings with Japan and we got it. When today we declare that a Japanese resident of California cannot send his property to wherever he wills, we are breaking through the treaty."

MINISTER IN WRECK.

El Monte Divine Crushed Beneath the Weight of an Automobile Which Turns Turtle.

No one saw the machine turn turtle with its lone occupant and the divine was unconscious when William Fairley and W. R. Pitsenberger, two K.P.C.A. officers, noticed the wreck from a passing Monrovia car.

A physician who examined the injured man found a shattered collar bone, a broken arm, severe bruises and internal injuries. Rev. Munger was taken to his home in the automobile of Ward Fowler of Pasadena.

CALIFORNIA SHRINERS AFTER GREAT MEETING.

Notable from the North and Al Malakiah Officers to Meet in San Diego Sunday to Plan Work in Atlanta Next May to Capture Gathering for San Francisco.

The Shriners of California are out strong after the Imperial Council meeting to be held in 1915. San Francisco would like to have the convention and the Shriners of that and the other cities of the State are organizing a movement to storm the Imperial Council meeting in Atlanta next May and capture the gathering for the following year.

At a preliminary meeting held in San Francisco recently the Shriners made plans for forming a battalion organization of 200 members of the bands and patrols and sending the largest delegation to Atlanta that has ever before attended an Imperial Council meeting. It is proposed that this aggregation visit the large cities of the Middle West and East and head for the 1915 meeting which is expected will draw 150,000 visitors.

Scofield's Semi-Annual \$5 Trimmed Hat Sale

HATS worth up to \$15, in the Semi-Annual Sale at \$5.00. The sale is bigger and broader than ever before. Owing to market conditions during the past 60 days, manufacturers and wholesalers were compelled to unload. Scofield's were there with the ready cash—able to buy in big quantities, on account of conducting two stores. Secured wonderful bargains. You benefit by them.

Scofield's Store at 735 Broadway is on the second floor—entrance through Zuber and Robinson's. The \$5 Trimmed Hat Sale is at both stores.

Continued from First Page. Road is accepted at its face value, and opens an interesting field for conjecture as to the possible successor to the \$6000 job as Harbor Attorney at present held by Leslie R. Hewitt.

SANDBAGGED AND ROBBED. Railroad Men Found in Southern Pacific Yards, Examined by Lunacy Commission.

CAPTURED IN TEXAS. LONG BEACH, June 18.—[Exclusive Dispatch.] A year ago Robert Fraser, a planing-mill employee, is alleged to have victimized several local merchants by means of forged checks, using the name of Arthur Bates, a local contractor. He skipped out, but circulars were sent all over the country for him, and tonight acting Chief O'Rourke received a telegram from Beaumont, Tex., announcing Fraser's capture, and that he was trying to secure his release by habeas corpus. A reply was sent to hold him until extradition papers could be secured, and an officer sent to get the prisoner.

Revitalize Yourself at Whittier's Hot Springs

For the young man who needs a little assistance in establishing himself in business. For the middle-aged man who, having been successful in business, needs responsible financial backing. For the older man to whom safety and solidity are the essential banking inducements. For the young woman who would gain the educational value of a bank account, the feeling of responsibility, the business standing that it will give her. For the middle-aged woman who wishes wise counsel, sincere, friendly advice as regards her investments. For the woman of more mature years who wishes a safe deposit service that will guard her heirlooms. An absolutely Universal Service in a bank equipped to serve all.

GET LARGE WELL HABRA VALLEY.

AMALGAMATED PRODUCER DOES TWO THOUSAND BARRELS.

A Second of a Large Number of Wells Expected in Soon in Fullerton Field—May Oil Receipts of Midway and Maricopa Northern Companies.

The Amalgamated Oil Company brought in well No. 14 on its Anaheim Union lease in the Fullerton field with an estimated output of 2000 barrels a day yesterday. The well came in at 3245 feet, and the oil appears to be about the usual gravity found in this portion of the field. With this well, the company's production from the Anaheim Union lease probably amounts to some 7000 barrels daily.

The Amalgamated has No. 15 near completion, and two or three wells on the Union's lease are nearly finished. The Petroleum company will have wells in shortly. A number of other concerns in the center of operations in the field should soon add to the general production.

In Brea Canyon the Birch Oil Company has three wells nearly completed on the Emory ranch. The standard has at least one well which should come in soon.

The Maricopa Northern Oil Company's receipts for its May production were \$127,552, as compared with \$112,477 for the April output, and \$112,139 for that of March. The company's net liabilities June 1 were \$112,000, compared with \$110,732 May 1. No 2 well was being cleaned at this time, which was probably responsible for the smaller receipts.

The Pacific Oilfields, Ltd., expects receipts for the month of May to be about \$100,000, according to report. The company has seven wells on its holdings, which produce a heavy oil with considerable emulsion. The company is said to have funds for developing the field, but will not make use of them at the present.

# \$ A Thought for July 6%

Are you thinking about that money which will come to you in July?

The main thought will be how to invest it quickly and satisfactorily without the loss of a day's interest.

If you are familiar with the 6% Investment Certificates of this Association your thoughts will turn to them instinctively.

If you are not familiar with these Certificates, let us direct your thoughts toward them as the most advantageous form of investment for your purpose.

They begin to earn 6% interest immediately. Simply bring or send your July money to us as soon as you receive it and the question of how to avoid loss of interest is solved for you.

Our Investment Certificates are available in any amounts in multiples of \$100.00. The 6% interest is payable semi-annually by coupon attached to the Certificate. They are secured by first mortgages only on improved property, and are further safeguarded by a non-withdrawable capital stock of \$300,000.

Think of these Certificates whenever you think of your July money.

## State Mutual Building & Loan Association

Established 1889

Assets \$3,700,000

R. Nichols made an offer to the city of Corona as follows: Provided the city agrees to set aside the sum of \$25,000 a year for the maintenance of the city park, recently purchased, they would agree to deed to the city a strip of land 200 feet wide and fronting on the boulevard, and 400 feet deep, leading to the park grounds, without further cost to the city.

The Mayor did not care to take the responsibility of accepting the offer and finally said he was not in favor of the proposition. The matter was finally disposed of by calling a special election at the earliest possible date and let the people decide for themselves.

The action of the board is a subject of much discussion among the citizens, as a number of different public organizations have expressed themselves as being heartily in favor

and sharp at that hour, the show will start. First will be Meehan's educated canines, which dance, leap, box, do tricks, and entertain almost like humans.

Then will come Lester, the great ventriloquist, who will toss his voice about with great agility, and listen as his naughty boy dummy makes him do and say a lot of funny things. Lester's boy will be found particularly entertaining this morning, for he will be talking to children, like himself.

And then, as the big event, will come One Edwards and his twenty-five boys and girls, in "The Fountain of Youth," a song review, with six acts, and as many changes of scene and song. A lot of new songs will be presented, and Cuddles, a dainty wisp of a girl, and Georgie, the boy, with all the rest of the more grown-up boys and girls, will participate in songs, dances, living pictures, and beautiful events. This will bring the show quite up to noon, and it will then be time to go home for luncheon. Thus everything done will be especially adapted to children, and entertaining to them.

So, newboys and orphans, get ready. There will be no delay in the show, and the doors will open at 9:30 o'clock, with the curtain promptly at 10 o'clock. If you want to hear the music and see all the show, be there at 9:30 o'clock, and in any event, not later than 10 o'clock, for later than that you may not get in. The Times and the Orpheum want everyone on hand, and for the full show. Watch the Times tomorrow, and learn some more about the big event of Saturday.

Lester Ventriloquist

Reg Martin

They'll help entertain the orphans

At the Orpheum Saturday morning in the great free theatre party arranged by The Times through the courtesy of the Orpheum management. The long group picture is of Gus Edwards and his company—"The Fountain of Youth in Six Spots."

### WEDNESDAY MORNING.

#### The Oil Industry.

#### LARGE WELL HARBA VALLEY.

#### UNWANTED PRODUCER DOES TWO THOUSAND BARRELS.

A barrel of a large number of wells in the Harba Valley, California, has been produced in the last few days. The well is located in the Harba Valley, California, and is producing about 2,000 barrels of oil a day.

#### POSTOFFICE SITE IS DECIDED ON.

#### CITIZENS BANK BID CHOSEN BY POSTAL PEOPLE.

New Location to Be Ready for Business First of the Year—Dispute Over Boulevard Entrance to Be Decided by People in Election. Free Site Not Favored.

CORONA, June 18.—A few weeks ago Uncle Sam advertised for bids for a new home for the postoffice. Since the bids were handed in rumors have been floating around to the effect that this or that site had been selected but each proved to be without foundation.

Postmaster W. L. Brown received a message yesterday from the Postoffice Department at Washington informing him of the acceptance of the bid of the Citizens Bank.

Consequently by the first of January, 1914, the new location of the postoffice will be on the corner of Sixth street and Ramona avenue. This item of news will be received with great satisfaction on the part of those living on the east side of Main street while those living on the west side are equally disappointed. Among those who submitted bids for the postoffice were D. Lord, Dr. M. R. Huff, Joy Jameson and the Citizens Bank. There has been considerable interest manifested among our citizens, especially between the Citizens Bank and the offer of Joy Jameson, who was associated with the First National Bank, the latter being quite anxious that his bid be accepted. The bid calls for a ten year lease.

The acceptance of this location means the erection of half a block of business houses from the alley on Sixth street east to the corner. The old livery barn will be torn down and this landmark will pass into history. Those interested in the building up of this corner will be the Citizens Bank, Charles F. Ellsworth, Howard Glass and R. H. Willis.

#### PEOPLE TO VOTE.

A stormy scene took place at the meeting of the City Trustees last evening when the question of accepting the offer of boulevard entrance to the new city park came up for action.

Several weeks ago Mr. and Mrs. L. Jolly and Fred.

#### WILL BE A BIG DAY FOR THE LITTLE ONES.

#### The Times' Orpheum Theater Party for Orphans and Playgoers Saturday Morning All Arranged, and They'll All Invited—Los Angeles Railway Will Even Give the Orphans Free Rides Both Ways.

EVERYTHING is lined up for The Times' Orpheum Theater party for the orphans and playgoers Saturday morning. The party will be held at the Orpheum Theater, and the Los Angeles Railway will give the orphans free rides both ways.

Another company. Committees of women, patrons and members of the management board of each orphanage will be on hand to look after them and make them welcome, and a committee representing The Times and the Orpheum will also be there, so that everyone will have "the glad hand" extended, and be made to feel at home.

And the show! Of course, that is the prime thing after all. Well, at 9:30 o'clock, the doors will be opened and A. F. Frankenstein will wave his baton and lead his symphony orchestra in a lively march. Then it will play the noted Haydn "Toy Symphony," written especially for children, and follow it with some popular airs ending with the national air, in which everyone is to join.

THE BIG SHOW.

By this time it will be 10 o'clock

and sharp at that hour, the show will start. First will be Meehan's educated canines, which dance, leap, box, do tricks, and entertain almost like humans.

Then will come Lester, the great ventriloquist, who will toss his voice about with great agility, and listen as his naughty boy dummy makes him do and say a lot of funny things. Lester's boy will be found particularly entertaining this morning, for he will be talking to children, like himself.

And then, as the big event, will come One Edwards and his twenty-five boys and girls, in "The Fountain of Youth," a song review, with six acts, and as many changes of scene and song. A lot of new songs will be presented, and Cuddles, a dainty wisp of a girl, and Georgie, the boy, with all the rest of the more grown-up boys and girls, will participate in songs, dances, living pictures, and beautiful events. This will bring the show quite up to noon, and it will then be time to go home for luncheon. Thus everything done will be especially adapted to children, and entertaining to them.

So, newboys and orphans, get ready. There will be no delay in the show, and the doors will open at 9:30 o'clock, with the curtain promptly at 10 o'clock. The Times and the Orpheum want everyone on hand, and for the full show. Watch the Times tomorrow, and learn some more about the big event of Saturday.

By this time it will be 10 o'clock

Free Lessons in Embroidering, Knitting, Tatting, Crocheting and Richelieu. Every Tuesday, Thursday and Saturday, from 9 to 11 a.m., 2 to 4 p.m.

## VILLE DE PARIS

### Semi-Annual Clearance

The silk department is offering many attractive silks at clearance prices. From among the various styles included at sale prices we mention:

#### Novelty Silks Reduced to 75c

This lot consists of a very attractive collection of novelty weaves, stripes, checks and Jacquard effects. All good color combinations, and appropriate silks for waists and one-piece dresses. This low price should attract great interest, as the latest weaves are included in the lot.

#### Double-Fold Silks Reduced to 95c

These double fold silks are particularly interesting, as the collection embraces some decidedly rich-looking bordered effects in Figured and Silk Radiant.

All Remnants of Silk In Plain and Fancy Styles At Greatly Reduced Prices

### French and Scotch Imported Gingham Clearance Price, Yard 16 3/4c

This offer includes our entire stock of fancy French and Scotch gingham, in the

Celebrated Anderson Make—Also Greenleaf & Lambly Gingham

A splendid assortment of checks, stripes and plaids to select from, in a great variety of color combinations. A most fortunate opportunity for buying gingham to make dresses for home, street, school, beach and vacation wear.

When you consider the fact that gingham is good the year around—you should lay in a supply for future use—when you can buy them at such a great saving.

## CHOOSE YOUR ROUTE WITH CARE

On frequent dates during the summer, round-trip fares will be available for almost any kind of an eastern journey.

Californians who have never lived in the East, and who may not be familiar with the Burlington System or its well-operated trains, and who do not know how conveniently its several main lines can be utilized as part of a comprehensive tour of the East, can easily learn by asking anyone who has lived east of the Rockies or by consulting us.

VETERINARIANS IN CONVENTION.

PRACTICALITIES FEATURE OF SESSION HERE.

Slaughter Cows to Prove Existence of Tuberculosis Whom Least Suspected and Hold Clinic Today to Demonstrate Relief of Animals Suffering from Same Disease.

A cow may be the picture of perfect bovine health and still be infected with tuberculosis, according to the findings of the California State Veterinary Medical Association, which is in session here.

Although in apparent condition their dissection proved them to be in various stages of tuberculosis, two of them far advanced. The effects of this disease on the milk and on the meat were extensively discussed to determine the actual danger of contagion to human beings as well as to cattle in the same herd.

This is only one of the interesting things the veterinarians planned for the convention. A clinic demonstrating the relief of horses and dogs suffering from the same disease will be given today at the Carr & Stephens Hospital on South San Pedro street.

The association banqueted at the Hollenbeck hotel last night, about eighty doctors from all parts of the State being present. Dr. R. T. Whittlessey acted as toastmaster and introduced Dr. W. E. D. Morrison to welcome the members from the North.

The convention will be called to order in the Chamber of Commerce building this morning and papers will be read by Dr. R. A. Archibald, Dr. David Fox and Dr. C. W. Brown. The officers for the ensuing year will then be elected.

The officers of the Southern California Society, who have had the programs in charge are: H. R. Sparks, president; A. D. Hubbell, vice-president; R. T. Whittlessey, treasurer; J. A. Dell, secretary. Committees: Literature, W. A. Boucher, chairman; John L. Tyler, George Hart; Clinics, W. R. Carr, chairman; H. T. Doak, A. D. Hubbell; Arrangements, W. E. Phelps, chairman; R. T. Whittlessey, Ward B. Rowland, and Programme, C. R. Cowen, chairman; R. T. Whittlessey, Ward B. Rowland.

RESIDENTS ARE HORRIFIED. South Pasadenaans Believe that the Creation of Films Will Have Bad Effect on Neighborhood.

Much agitation has been caused among the residents of the western part of the city by the announcement that a motion picture concern has leased and will occupy the old Mace estate on Pasadena avenue, which consists of a large house and about three acres of land. The lessee of the property is Wilbur Mulvey, who stated that he had leased the property for one year and had taken an option on it, which would hold good until the end of the year.

Objections were raised against the establishment of such a concern in what has heretofore been a high-class residential district. Marshal Johnson on complaint of some of the property owners has advised the trustees to appeal to the Board of Trustees. Mulvey, who was formerly located at No. 4550 Pasadena avenue, stated that he intended to put up a stage for the taking of pictures and otherwise alter the place to suit his business, and that he and his family will reside in the house. The property adjoins the home of Francis Blachoff, the noted artist, on the south, and Mrs. E. Brown on the north, and the rest of the block is entirely built up of high-class residences. The place also is only a half block from the Lincoln Park schoolhouse.

BANQUET PLANS. Plans and arrangements for the alumni banquet of the South Pasadena High School are completed, and from present indications, the affair will be the most brilliant given by the school. The banquet is to be served Friday evening at Los Terrados Hotel in Sierra Vista.

Accommodations for eighty are being planned, and the dining-room of the hotel is to be elaborately decorated in coropops, the class flower of the graduating class, and blue and gold, the class colors, will predominate in all the arrangements. The log cabin, the amusement hall of the hotel, will also be at the disposal of guests, and it is planned to have a social time here after the banquet and business meeting.

Victor Collins will be the toastmaster, and an interesting programme of speeches has been arranged. Palmer Ritchie, president of the Alumni Association, will have charge of the business meeting, and the election of officers and other matters of importance will be discussed at this time. The retiring officers of the association are: Palmer Ritchie, president; Louise Mason, vice-president; Helen Freedle, secretary, and Clark Swan, treasurer. The plans for the banquet are being made by Margaret Drickels, chairman of the Arrangement Committee; Helen Mason, chairman of the Entertainment Committee, and Clark Swan, chairman of the Finance Committee.

Harbor Trip Free!

Saturday June 21st

—take this trip —come on our excursion —it opens a way for you to make a small investment in real estate right in the district which is developing into a great industrial location.

\$80 Invested NOW Gets Benefit of \$200 Increase

—an \$800 lot for \$80 cash and balance \$10 a month will be advanced by us to \$1000.00 after June 25th. —Do you realize the big profit you can make by buying an Inner Harbor Industrial lot NOW?

Long Beach Section of Harbor Area One of Great Industrial Activity

—Millions of dollars already invested in harbor improvements and going industrial plants further augment the increasing value of the limited available sites for manufacturing purposes. —Practically nine-tenths of all the harbor property which could be used to an advantage is owned or controlled by the city, the railroads and private corporations and is not for sale.

Paid for postage at Los Angeles, California.

**THE REAL REASON.**  
The German Stock Exchange gives financial stringency as a reason for barring the Mexican loan. Mexican looseness, instead of German tightness, is probably nearer the truth.

**AN OBJECTION.**  
One of the things which makes a fight with the Japanese bad is that they are so stubborn they never know when to run. A Japanese never enlists to fight for his country; he joins the army to die for his country. It is hard to whip a man who is disappointed if you don't kill him.

**PANAMA BREAKERS.**  
A lady from Santa Monica went down into the canal zone and told the ladies of all colors there that they must vote. We don't see why Col. Goethals ever dredged that ditch and left it open for the construction. We see troubled waters ahead for that bright southern land.

**LOGICAL.**  
The Democrats are disturbed that 80 per cent. of the civil service employees are Republicans. They forget that until the Grand Old Party injured itself by harboring a snake in its bosom which stung the party temporarily out of power about 80 per cent. of the entire population was Republican.

**A MISTAKE.**  
A man killed himself because his wife would not forgive him in three minutes. In case his transgressions had covered a period of several years it was indiscreet in him to try to get a clean slate in such a hurry. In fact it was probably a mistake, to admit that there was anything to forgive in the first place. No loyal wife is going to believe her own eyes against her loving husband's word.

**ANOTHER PLAYGROUND.**  
An effort will be made to exploit and popularize Santa Cruz Island as a summer and winter pleasure resort. There is always an appealing romance about an island, and if this one has good water, and if its owners will make liberal passenger and freight rates and sell sites for summer homes outright at a reasonable price, the venture is almost certain to prove a tremendous success.

**REASONABLE.**  
The Southern and the Union Pacific roads are asking for more time in which to prepare their dissolution. Since this story has been forced upon them and inasmuch as their interests are both large and complicated these railroads are certainly entitled to all the time actually necessary for their separation on compatible terms. Los Angeles naturally hopes that the Pacific Electric will remain under the Southern Pacific. The interests of the two companies are identical in many respects and the service which Los Angeles has received under their conjoining is admirable. Indeed this city has the finest interurban service in the world. It yet has many problems to solve and these are so well under control that any change or disturbance in management at this time would be regrettable.

**A CLEVER MAN.**  
The Empress this week has enjoyed a black-face comedian by the name of Al Hermann, who is billed as the Black Laugh and who demonstrates some wonderful psychology. He has a great trick of startling the audience at the outset with a thundering voice and of keeping everybody on the edge of expectancy for the thunder to break out again. Then he mispronounces the key word in every verse of his songs because he knows people will wait to see if he means to correct himself in any of the verses. Best of all, he makes a delicious exposure of every trade trick of the performers who have preceded him, and this is done with such irresistible humor that one enjoys the show all over again. Psychology is great stuff when it is put to work by a real humorist.

**WILL THEY DO IT?**  
The opportunity is presented to Senator Newlands of Nevada, Senators Ashurst and Smith of Arizona, and Senators Chamberlain and Lane of Oregon in co-operation with the Senators from Louisiana, or any four of the seven, to save the wool and sugar industries of their States from wreck and ruin by boldly proclaiming their independence of caucus dictation and their purpose to vote against the Wilson-Underwood tariff bill, unless sugar and wool shall be taken off the free list.

They can take this course without impairing their Democracy or breaking faith with their party obligations. The national Democratic platform called for a revenue tariff. It did not call for an extension of the free list. As articles admitted free contribute nothing to the revenues, they form no part of a revenue tariff, and any Democratic Senator who votes to reduce the revenues seventy millions of dollars or more by placing wool and sugar on the free list votes against and not for a tariff for revenue only.

The political disadvantage that might come to these Senators by being deprived of a few inconsequential appointments to Federal patronage by incurring the displeasure of President Wilson would be more than offset by the support and accumulation they would receive from their constituents for many upholding of the interests of their States despite the withdrawal of Presidential patronage.

## FEDERAL RESERVE BANKS.

The ghost of Gen. Jackson has folded his wings, dropped his harp, and is howling to beat the band through the courts of heaven this morning. The text of President Wilson's Federal reserve bank bill was too much, altogether too much for the general's equality. He has been drifting away from the Democratic party for years. Most of the Democrats who have, since 1861, left this vale of tears have been compelled to accept assignments to quarters reached by an asbestos ladder instead of a golden stairway, and the wireless reports are that the members of the downstairs contingent are also angry at the undemocratic flop of President Wilson and will hold a caucus and expel him from the party as soon as the weather shall be cool enough to warrant a meeting.

The national banks have incurred the hostility of President Wilson and his Federal bill is designed to quell their indifference to his antagonism.

Under the bill proposed there will be twelve Federal reserve banks, no one of which will be allowed to do business with a capital of less than five millions of dollars. But the capital required will in many instances, if not in every instance, greatly exceed that sum, for every national bank now in existence is compelled by the proposed law to subscribe 20 per cent. of its unimpaired capital to the capital stock of the Federal reserve bank within its district. The capital stock of the Federal reserve bank to be established in this city will probably climb into hundreds of millions of dollars.

Of the nine directors which each of these banks are required to have only three are to be appointed by the national banks, one-fifth of whose capital is commandeered, three are to be appointed from Washington, and three shall represent the "general public interest" of the district in which the Federal reserve bank is located.

What the "general public interest" is and in what way it is to be concretized into individuals is not stated. It is dollars to dimes that Tooplus will claim to be a representative of "the general public interest," but it may be assumed that he will not invest any of the rebating money in the bank.

The control and management of all twelve banks is to be placed in a Federal reserve board of nine members consisting of three members of President Wilson's Cabinet, three members appointed by the President, and three members chosen by the election of the Federal reserve banks, whoever they may happen to be. But, as the three members appointed by the President are to be governor, vice-governor and secretary of the Federal reserve board, it is clear that the capital, the management and the vast power of the entire system will be in the hands of President Wilson.

The national banks that are now designated depositories of government funds will no longer be accorded that privilege. All government funds will hereafter be deposited in the Federal reserve banks.

The Federal reserve banks may receive deposits from its stockholders and from the government and from State banks and trust companies, but from no others. These banks may on application to the Federal Reserve Board receive treasury notes to an amount equal to the value of collateral deposited.

No national bank will be allowed, as now, to issue circulating notes, and those now outstanding must, within twenty years, be recalled.

Provision is made for frequent and drastic supervision by the Federal reserve board of the national banks.

Upon the independence of any member bank the Federal reserve banks may discount notes and bills of exchange arising out of commercial transactions.

There are many regulations and provisions for the government of the national banks by the Federal reserve banks, and for the government of the latter by the Federal Reserve Board.

The law is intended to extinguish, and will extinguish, the present national banking system and supersede it by Federal reserve banks governed by three members of the President's Cabinet and three persons appointed by the President.

At the discretion of the Federal Reserve Board \$500,000,000 treasury notes, plus an amount equal to national bank notes retired, is authorized to be issued to the Federal reserve banks on collateral security.

Each Federal reserve bank may establish branch offices, the number of which must not exceed one for each \$500,000 of the capital stock of such reserve bank.

There are some good features in the proposed law and some that are objectionable. The chief objection to it is that it practices at lodges in President Wilson supreme control of the banking business of the country.

## GIVING UP THE PHILIPPINES.

While we are naturally agitated over the effect on business, the stringency of the money market and the general fall in securities brought about by the tariff-tinkering of the Democratic party, we must not forget another plank in their platform, equally un-American and equally dear to the heart of Secretary Bryan. The surrender of the Philippines in their still disturbed condition means the nullifying of a most important step in world progress taken by the American people. In that distant archipelago western civilization is making a fine record; a new city of Manila has been built, the people are being educated, sanitation has been introduced, but the work at present is not half completed.

To give over the control of the islands to a native majority still steeped in savagery will be to undo the splendid work of the engineer, the missionary, the school teacher and the Christian missionary. We should be inaugurating in the Philippines an era of chaos far worse than that at present devastating Mexico. We should be offering Japan a valid excuse for stepping in and taking up the heritage we had foolishly forfeited.

At present the Democratic foreign policy is kept in the background until some degree of order has been evolved out of the present tariff confusion. But there is no sign that Mr. Bryan will allow his pet project to be shelved—if he can help it. Therefore it is necessary for all Americans who have faith in Republican government and believe in western ideals to be prepared to

## Bitter Medicine.

resist tooth and nail any attempt to take so retrograde a step.

The recent fighting in the island of Jolo, where some valuable American blood was shed, proves that the strong arm of our government is still needed to pacify the turbulent element. The health and beauty and convenience of the new American city of Manila, the spread of our school system and the steady improvement in native morality prove how imperative it is for us to continue the good work.

No white nation has ever yet gone back in the work of colonizing, of development and progress, of spreading the light of knowledge over the dark portions of the globe. France and Germany, Italy and Great Britain have been pressing forward in Africa against heavy odds and in the face of repeated failure and sometimes crooked dealings. It doesn't matter whether the map of Africa be colored red or green or purple. It does matter that it shouldn't remain black. It matters more every year that all portions of the world's surface, wherever possible, should be reclaimed and cultivated and developed for the good of the whole human race.

This is not a matter of national or imperial domination. It is a bread-and-butter question for a world continually becoming more densely populated. The setback in Mexico has affected the price of meat in New York and London. A setback in the Philippines will be felt in Philadelphia as well as in Manila. Had Great Britain given up Australia and New Zealand to native rule, after a ten years' occupation, had Europe allowed Africa to remain still a dark and sealed-up continent, the present price of provisions would be far higher than they are today. Had Columbus never discovered America, or the white colonists given way to the red men, every city in Europe would now be ringing with the bitter cry of starvation.

America cannot, will not, give up the Philippines. America will not be the first white nation to shirk the responsibility of taking up the white man's burden.

## MONOPOLIZING OPPORTUNITY.

The offense with which the trusts are charged, and which the Sherman law was intended to reach, is the monopolization of opportunity. The hog is the only four-footed animal that, not content with his own abundant dinner, insists upon placing both feet as well as his snout in the swill trough so as to exclude another hog therefrom.

There are laws and laws upon the statute books of many States establishing and enforcing fair play between big business and little business. There are laws to safeguard labor from the aggressions of capital. But when it comes to safeguarding capital from the aggressions of labor unions, or protecting non-union labor from the aggressions of union labor, then it is your bull that is going my ox, and that is entirely different from my ox going your bull.

The public conscience of at least one State has awakened with respect to a very iniquitous, unjust and drastic form of monopolization of opportunity, carried on by union labor, not against capital, and not even against non-union labor, but against the rising generation, against children who, by their operations, are to be prevented from becoming skilled artisans, and remitted to the ranks of unskilled or common laborers. New Jersey bids fair to be a State which will legislate for the benefit and protection of the rising generation. A bill which was side-tracked by the efforts of the Gompers gang at the recent session of the New Jersey Legislature and which will be introduced again at the next session reads as follows:

"It shall be unlawful for any person, persons, association of persons, combination of persons, or body of persons to prevent, attempt to prevent, or combine to prevent, any individual from learning, or from becoming an apprentice, or from the purpose of learning any useful and lawful trade; or from any act which shall result in restricting the number of individuals who may learn or become apprentices for said purpose; or in any way interfere with the enrollment as an apprentice, or the employment of any individual desiring to learn or acquire a useful and lawful trade.

"2. Anyone violating the provisions of this act shall be guilty of a misdemeanor."

The proposed law, as stated by its pro-

ponents, points out and prohibits a form of monopoly that is especially vicious and tyrannical because it directly affects the masses. It is a law to establish fair play between workers and the children of workers and to safeguard the sacred right of every young American to enjoy freedom of opportunity to learn a useful trade.

The welfare of the State," said David C. Mills, in his argument in favor of the bill, "is based upon the skill and intelligence of the masses. The hope of the State in the race for industrial supremacy—indeed industrial survival—lies in the intelligence and efficiency of its people."

"It is this idea that governs our policy in respect of compulsory education. We compel attendance in our schools because we know, beyond any question, that intelligent citizens are a fundamental need of the State. Our chief asset, our richest natural resource, is the great body of children in our public schools, the children of working people, the children of the plain citizen."

"The proper conception of the duty of this State to these children is first their protection from exploitation. This we have accomplished by an excellent system of child labor laws. Then we must fit them by education and training to become intelligent and useful citizens, capable of bearing the full burden of citizenship in an industrial community. This we endeavor to accomplish by establishing a long period of compulsory education in the schools. And finally we must assure them the freedom of opportunity to exercise and develop their capacity for useful service."

The rule of the labor unions that tends to prevent young men and women from entering a trade as apprentices, that prevents them from perfecting the rudimentary training in useful service that has been given them in the schools, is an act against the interests of the State and should everywhere be prohibited by law.

It is an inalienable right of every young man to take advantage of any opportunity that may be presented to learn and practice a trade in which his service and his reward may be greater than in the field of unskilled labor. When men conspire to take away that right or change it into a privilege for the few, then they take that which does not belong to them. The argument that such restriction of the freedom of opportunity is expedient, is necessary for the benefit of the few in competition with the many is no defense.

The restriction imposed by the unions on the number of apprentices that may be taken in a manufacturing establishment is a common-law conspiracy, contrary to public policy and utterly defenseless in the presence of the right of a whole community, or any single boy or girl in the community. It is to be hoped that New Jersey will set an example in remedial legislation that all the other States will follow.

## UNCLE WALT.

The Poet Philosopher.

The old world is wagging along to the bragging of those who have won in the battle of life; their vaunting and crowing we hear as we're going to do what we can in the hurry and strife; but Midas and Croesus have all gone to pieces and millions of winners have crumbled to dust; the old world, still wagging, has heard legends bragging, whose names are forgotten, whose riches are rust. The old world is lying along to the sighing of those who have troubles too heavy to bear; and loud sounds the wailing of sick souls and ailing, the chorus of sorrow, the dirge of despair. But millions are sleeping who one time were weeping and cursing their gods in the caverns of gloom; the old world, still lying, has heard so much sighing—has heard so much prating of dolor and doom! The old world is rumbling along to the grumbling of those who can tell how it might be improved; the kicking and carping that have been harping since first in the dawn of the ages it moved. But millions are planted who once gallivant around on the surface with croakings and kicks; the old world, still rumbling, has seen them go tumbling, has heard the small splashes they made in the Styx.

WALT MASON.

## FLEECE.

Mary had a little lamb,  
Its fleece she meant to grow;  
But now it seems to mutton chops,  
The lamb is sure to go!

LOUIS D. HUMPHREY.

## AUCTION SALE OF POLITICAL JUNK.

COMPILED BY JOHN C. WRAY IN THE SAN PEDRO NEWS.

LOT 1.

"Goo Goo" Political Machine, built under patents owned by E. T. "Rebater" Earl, George Alexander and Gov. Hiram Johnson.

Note: This machine is badly damaged, much of the intricate mechanism is missing, and will only prove valuable as junk.

LOT 2.

Three gimlet holes and one revolving office chair, recently removed from the studio of Guy Eddie, ex-Censor of Public Morals.

LOT 3.

Manuscript copy of the report de luxe of the Owens River Power Plant. Not yet published.

LOT 4.

Two bicycles borrowed from the property room at the Central Police Station by ex-Chief Galloway, "Hoot Mon," and City Councilman John Topham.

LOT 5.

Confidential correspondence which probably passed between E. T. "Rebater" Earl, Mayor Alexander and the heads of the various departments relative to the distribution of "Goo Goo" patronage.

LOT 6.

Photo portrait gallery, comprising copies of 117,684 photographs of Mayor Alexander, showing the great man in every known pose, and a few that are past understanding for description.

Portraits of the six Chiefs of Police, and the three Chiefs of the Fire Department, appointed, resigned or removed during the Alexander administration.

LOT 7.

Ten copies of the Municipal News which was published at a cost of \$37,500 to the taxpayers. These ten copies were saved from the City Hall ash can.

LOT 8.

Cross section of one of the nine piles which constitute the physical evidence of the improvements in the outer harbor at San Pedro, costing \$1,786,000.

LOT 9.

Sample copies of the Chinese (legal) puzzles, compiled from the office files of the Harbor Commission and Board of Public Works—Leslie R. Hewitt is the author and sole owner of these wonderful brain-teasers, which even he cannot solve, after the ink has dried.

LOT 11.

Inside history of the workings of Mayor Alexander's personally-owned-and-controlled Police Commission, and true story of the employment of denizens of the underworld, both male and female, as stool pigeons.

LOT 12.

The greatest number of broken pledges, false pretense and political bunk ever gathered together in the history of Los Angeles.

LOT 13.

Diagram map, compiled by City Engineer Hamlin, showing the broad expanse of water in the outer harbor, where Expert Goodrich, at a salary of \$100 per day, insists that a municipal dock can be built, provided more harbor bonds are voted.

LOT 14.

Samples of the tie-faceted brick, that Engineer Hamlin substituted for full-glazed brick which the contract called for in the Hill-street tunnels now building.

LOT 15.

Crayon picture of an important political conference, recently held by Mayor Alexander, when P. H. Hickman, Clyde C. Johnson and Fred Lloyd and the rest of the kitchen cabinet. This meeting was held prior to the defeat of John W. Shenk.

LOT 16.

Family group of Mayor Alexander, Guy Eddie, heads of the various departments and a platoon of police, censoring a theatrical performance and ordering panjandrels on the piano legs and curtains on the bass fiddle. For moral tone this has never been equaled.

One tin halo, size 6 1/2, which has been worn constantly by George Alexander since 1890, when he was appointed deputy in the office of Superintendent of Streets Morford. This halo is sadly dented and much the worse for wear, but has been the fetish of the Municipal Union and other hating Alexander worshippers for many years.

## SIZING UP THE SYMPTOMS.

Her love is wanting when:

She comes to the breakfast table in a wrapper.

She lets him see her comb her store hair.

She says there aren't any such creatures as the boys who keep him out at night.

She says she's glad they don't hold hands any more.

She says she's going shopping and leaves him at home.

She tides up his den.

She forgets to hand him the current neighborhood scandal.

She detects the reason for the clove.

His love is chilling when:

He notices that the peculiar look in her eye is a squint.

He insists upon having sugar in his tea.

He notices that the mantelpiece is dusty.

He wonders what he can tell her when he is late.

He asks her if that is really singing.

He reads the newspaper at breakfast time.

He completely forgets to buy the magazine she wants.

He won't let her shoe lace on the street.

He says she's getting extravagant.

—[Judge.]

Aunt Explained.

That some people have a happy faculty of gracefully wading out when they get into deep water was demonstrated by a story told Senator George P. McLean of Connecticut liberated at a recent banquet.

In a New England town, according to the Senator, there is an elderly lady of the good old-fashioned school, who justly boasts among other things of the perfect order of her home.

One day she was visited by a niece from a large city and after a gentle welcome, the fair relative was taken through the dustless house and shown aunt's way of maintaining the domestic peace.

"And do you know, dearie," pleasantly smiled aunt, as she reached the dining-room, "I haven't a single fly."

"Why, aunt," wondering responded the niece, "aren't you mistaken? I am sure I saw one or two as we came into the dining-room. There they are now!"

"Oh, those?" calmly replied aunt, with a scornful wave of her hand. "They are the neighbors' flies. They are bound to come in, you know."

## Pen Points: By the

A "little more of the great" Bryan!

Now that it is all over, to whom do Scutari belong?

President Huerta still hangs on the front door steps of Uncle Sam.

Why doesn't some wireless telegrapher announce that he has communicated with Mars?

This is not a noiseless age, if it is to judge from the prevailing colors of summer dress goods.

It is now denied that President Huerta had died a natural death. That is another sensational story spoiled.

William Rockefeller has completed his conversion. What wonderful mission Banker Morse and himself use!

In spite of the anti-Japanese talk in this country there is a lot of land in that the people are not using.

With the advent of the new millennium, it may not be necessary to have a milk of human kindness certified.

Ex-President Roosevelt is doubtless busy to tell us what he thinks of the Johnson's anti-Japanese policy.

It is just possible that Charles W. Johnson accepted the presidency of the Navigation Company for his bank.

There is one thing for which Johnson never be forgiven—the refusal of Johnson on the attention of the country.

If, as claimed by a Highways, there be no kissing one hundred years ago, there is all the more reason for busy now.

All this war talk is not working powder trust to any purpose, and the makers of armor plate are all in the dumps.

The American dinner pail has been since the enactment of the McKinley law. Let's see if the Democrats can do it in that condition.

Wrestler Zbyzsko is coming to Los Angeles, but nobody but his men and friends are able to pronounce his name. It is worse than a half-breed's name.

What has become of the children of man who used to say that he would through a grindstone—if the hole in the center was big enough?

When ex-King Manuel was crowned in Victoria in September to celebrate his birthday, he was willing to do anything to please his subjects.

Almost time to close up the first of the house and seek to create the illusion that the dwellers have gone to the seashore or the mountains.

On their way back home from the less quest for jobs the Washington seekers might stop off at a few San harvest fields of Kansas.

A horse in San Diego committed suicide by throwing itself over a cliff. It was uncertain age and had existed about years without any gasoline.

The States that were carried off by revolt are protesting loudly about the tariff bill. But for the States that assisted there would be no revolt.

The Indians are leaving their homes in Oklahoma and actually going to the coming to them. Really this is the fire water that ever did the Indians good.

President Wilson is quite a puzzle. There will be no guess as to the meaning of the tariff bill is out of the picture. Meanwhile it behooves Congress to want a slice to be good.

The proposed investigation into the ity of armor plate furnished for the navy is reminiscent of the days when much fuss was made about a nation and nothing was accomplished.

It is now required by a law in Pennsylvania that two little more be read in the schools every day at the end of the school year and at the end of the school year.

School vacations will soon be a thing of the past, and the teachers who have money and retained the temptation by the bargain sales will have money to pay mother a visit.

It is reported that a lot of gold-mining claims on American soil are gold-seekers. Even as hollow as something from the white man.

The word that crops up in the large this summer all over the States is merely proof of the fact that the country did not get any last fall.

On the Highways.

Here grow the amber grapes that star.

On hills as supple as a young man's back, the sun is shining on the sweetest of the nightingales.

God wanted Eden; he is to be a human.

And bowed his head to the ground, and he is a human.

And at their feet he laid his head, and he is a human.

Where magic Arabian nights are told, and he is a human.

What showers of wealth and power are told, and he is a human.

**ROOM STARTS FOR GOOD ROADS.**

**COOL IN ARIZONA.**  
The past week has been a cool one in Northern Arizona, with flurries of snow noted in the mountainous region around Flagstaff and Williams. J. J. Van Eaton has purchased the Weekly News at Williams, a journal founded by George U. Woung, former territorial secretary. Mr. Van Eaton lately has been connected with the Phoenix Democrat.

**William F. Steierfeldt, for many years a resident of Tempe, died in Prescott Monday.** He had spent the past year in Los Angeles, where his son is a sergeant of police, but returned to Arizona in hopes of relief from asthma with which he had been a sufferer.

**Last Thursday M. J. Dougherty of Redlands, Cal., died of tuberculosis at his home in Prescott.** He leaves a wife and sister, the latter a resident of Redlands.

**Milestone.**  
**DAY OF FLOWERS; FELICITATIONS.**  
**JUDGE WELBORN FETED ON HIS SEVENTIETH BIRTHDAY.**  
Venerable Jurist Breaks Down as He Endeavors to Reply to Unexpected Demonstration in His Honor by Attaches of District Court and Federal Building.

The language of flowers, the kindly eye, congratulatory speeches, and the hearty hand-shake of everybody connected with official life at the Federal building, all gave bon voyage to Judge Welborn yesterday, on the occasion of the seventieth anniversary of his birth.

The court room was a wilderness of bloom, the gift of the official family of the United States District Court. A beautiful floral bow spanned the bench, the desk itself bore great bouquets of American Marchal Nell and Cecile Brunner roses, with a big display of Shasta daisies, orange gladioli and hydrangeas arranged with splendid effect; while the passageway of the judge from chambers to chair was fairly carpeted with flowers of every hue.

In the rear a handsome American flag covered the wall, bearing the figure "70" and decorated with fern and flowers.

The room was packed with officials and friends of the venerable jurist. As he came from his chambers, he took in with a glance the picture that had been made by his appreciative friends and acquaintances. He was about to begin the usual proceedings when District Attorney McCormick begged the adjournment of the court to make a few remarks.

The District Attorney paid an eloquent tribute of appreciation to the splendid record made by Judge Welborn during the eighteen years that he had presided here, and declared that his friends would be guilty of ingratitude if they allowed the occasion to pass without voicing their sentiments and letting him know their feelings concerning him. Speaking of the growth of business in the court and the further fact that Judge Welborn has done the work of three judges, McCormick said: "The result of your work speaks for itself. It is not for me to indulge in any explanation of it or its effects. However, the greatest and noblest thing in my mind in your Honor's career is not the work accomplished, but the esteem and affection in which your Honor is held as a man."

The speaker said that under the Federal law it is now possible for the court to tender his resignation and receive full pay during the remainder of his life, but he indulged the hope that he would not do so.

Oscar A. Trippett, on behalf of the bar of the district, extended his congratulations, and paid worthy tribute to the patience and good will always in evidence during all the varied litigation that had been disposed of in his court.

W. H. Rowland, a member of the trial jury in service, extended the congratulations of that body to the court. Judge Welborn was scarcely able to reply for emotion. Several times he broke down entirely. He said that he was ill-prepared for the display of floral beauty all around him or the kindly and sympathetic remarks of his friends, but that he wished to say something of the appreciation he felt to those responsible for it. He declared that it was impossible for him to find words to suitably express the gratitude he felt, and the comfort and satisfaction of friendly greeting that he had received. He fully realized he said, that no judge could hope to make a success without the earnest support of the members of the bar, and for that reason he had always tried to be courteous and kind to all of the officers of the court and those interested in the administration of justice. Judge Welborn paid a high tribute to the jurors who have served in his court.

On the subject of his retirement from the bench, Judge Welborn said: "I shall not now resign. I don't think of any early resignation. I feel quite content to continue with this work so long as I am competent intellectually and physically to perform it. What I want to say is that I shall not undertake to say, except that my purpose is as long as Providence may permit, to continue in the service of the court, to continue in its duties. If at any time I should feel that I ought to no longer continue to do so, I shall take no exercise, my disfigurement and turn it over to some worthy successor."

"Had I known or dreamed of such a manifestation as has been made this morning, I should have made some preparation to meet it in suitable words; but gentlemen, believe me, I cannot have no language, my disfigurement and turn it over to some worthy successor."

During the day, when Judge Welborn was in his chambers, he was called on by scores of friends bearing congratulations.

**Try Murine Eye Remedy for Red, Itchy, Watery Eyes and Granulated Eyelids.**  
Murine's Dry Eye will agree with you. It is pure and wholesome and an excellent stimulant.

**LIQUOR DEALERS TO ENFORCE LAW**  
Licensed Body in Phoenix to Run Down Blind Pigs.  
Present Summer Season Is Coolest Ever Known.  
Automobile Runs into Bear in White River Valley.

**Phoenix (Ariz.) June 17.**—In order to head off prohibition in the future and to confine the liquor-business to licensed liquor dealers, the wholesale and retail liquor men of Phoenix and hotel-keepers have formed an organization which will have as its sole purpose the enforcement of laws relative to liquor selling. The Chief of Police and Sheriff have been officially visited by a committee from this organization and have been assured of its co-operation in the suppression of "bootlegging" and of "blind pigs." Any sale of liquor in considerable quantity is to be traced down, to prevent, if possible, reselling in the rural districts of the county, wherein prohibition is now in effect.

**SUMMER SEASON IS COOL.**  
The present summer season, according to Weather Bureau records, is rated as one of the coolest ever known, remarkable for the fact that not yet has a temperature of 100 been recorded in the local office. This breaks the local record, for the latest date upon which 100 degrees heretofore was reported was on June 16, 1901. The earliest upon which the same temperature was known was on April 19, 1910. It is notable that last year was the coolest summer ever known, with an average temperature of only 84 degrees. Because of this relative salubrity, the usual summer exodus is not yet in full swing, though it is not improbable that Los Angeles this season will be visited by fully as many Arizonaans as usual.

Taking advantage of a temporary lull in Congressional work, Representative Carl Hayden, and wife have returned to Phoenix for a stay of a couple of weeks. Mr. Hayden expects to be back to his seat by the time the Senate has finished wrestling with the tariff, and the House has taken up the currency question. He makes no prediction as to the probable date of Congressional adjournment.

**TO REDUCE FREIGHT RATES.**  
The Southern Pacific and Santa Fe, without any pressure from the Corporation Commission, have announced material reductions in the freight rates between Southern California and Arizona points in order to make equitable some especially favorable rates heretofore granted between El Paso and Phoenix. As an instance of the reduction, fifth-class merchandise, heretofore \$1.15 a hundred, between Los Angeles and Phoenix, has been reduced to 83 cents. From San Francisco fifth-class rates have dropped from \$1.24 to 93 cents.

Excursions seem to be the order of the day throughout Arizona. Last Saturday, 150 business men of Phoenix visited Ray, Hayden and Winkelman. On Sunday, 150 Tucson people inspected the new extension of the El Paso and Southwestern Railroad and made friendly calls on Douglas and Bisbee. Twenty-five automobiles loaded of Phoenix people visited Tempe last Friday, developing enthusiasm for good roads. Early in July fifty or more automobiles will leave Phoenix for Prescott and the Grand Canyon, loaded with Southern Arizonaans, and about the same date will start a caravan of fifty or more motor cars westward across the desert sands bound for San Diego.

**AUTOMOBILE HITS BEAR.**  
Victor Redewill, a member of a party of young Phoenixians out on an excursion into the White River country, writes back concerning an adventure with a bear. Roundabout a sharp curve in the road one of the party's automobiles unexpectedly ran upon the animal, which, struck by a fender, rolled under the machine which it lifted in its endeavors to regain its feet, and escape. As it emerged from under the machine, a rifle shot settled its career.

**Banish All Skin Troubles**  
A Remarkable Remedy That Works Wonders Against Even Worst Eczema.

If you have been fighting some blood trouble, some skin disease, call it eczema, lupus, psoriasis, malaria, or what you will, there is but one sure, safe way to cure it. Ask for any drug store for a \$1.00 bottle of S. S. S. and you are then on the road to health. The action of this remarkable remedy is just as direct, just as positive, just as certain in its influence as that the sun rises in the East. It is one of those rare medical forces which act in the blood with the same degree of certainty that is found in all natural tendencies. The manner in which it dominates and controls the mysterious transference of rich, red, pure arterial blood for the diseased venous blood is marvellous.

Out through every skin pore acids, germs and other blood impurities are forced in the form of invisible vapor. The lungs breathe it out, the liver is stimulated to consume a great quantity of impurities, the stomach and intestines cease to convey into the blood stream the catarrhal, malarial germs of the bowels, kidneys, bladder and all emunctories of the body are marshaled into a fighting force to expel every vestige of eruptive disease.

There is scarcely a community anywhere but what has its living example of the wonderful curative effects of S. S. S. Get a bottle of this famous remedy to-day, and if your case is stubborn or peculiar, write to The Swift-Specific Co., 137 Swift Bldg., Atlanta, Ga. Their medical laboratory is famous and is conducted by renowned experts in blood and skin diseases. Their advice is entirely free and always strictly personal.

The Bank With The Efficient Service

# Public Reception

The German American Trust and Savings Bank Invites You to Inspect its New Home at Spring and Seventh Streets Saturday, June 21—From 4 to 9 P.M.

To acquaint the Public with the modern, complete Facilities of its magnificent New Banking Home at Spring and Seventh Streets, the Officers of this Bank ask you to accept this as a personal Invitation to be present Saturday afternoon.

All of the Bank's Officers and Employees, numbering more than one hundred, will be at their posts. You will see the machinery of a Great Bank in operation, so to speak.

You will be shown the Unique Features that we have introduced for your Convenience and Service—the many contrivances that make for Safety and Comfort—the Superior Safe Deposit Department—the impregnable Vaults.

This cordial Welcome is extended in the same spirit of courteous Service that has been so material a Factor in building this great Institution.

### Tobacco Habit Easily Conquered

A well-known New Yorker, who has had wide experience, has written a book telling how the tobacco or snuff habit may be easily banished in three days without any return of the craving.

The health improves wonderfully after the nicotine poison is out of the system. Calmness, tranquil sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency are among the many benefits reported. No more of that nervous tension, no more need of pipe, cigar, cigarette or chewing tobacco to pacify the morbid desire. The author, Edw. J. Woods, 554 Sixth Ave., 214 N. York City, will send his book free on application to anyone who writes to him.

## BUY MERCHANTS SHARES BEFORE THE RAISE

You are going to want some stock in this company at some time. You will surely want to be a co-partner with these well-known men in such a profitable business, so why not buy a few shares now before June 30th, when the

**Price Goes to 14c**

Our active operations so far to date more than warrant this raise. The sale of homes we have built in Alhambra and the sale of our Venice Short Line property at a fine profit has increased the value of our stock. Other and greater things will follow which will continue to increase the value of this stock.

**These Are the Men Who Head This Company:**

- L. A. HAUSER, President; Treasurer Hauser Packing Co.
- LEO V. YOUNG, Vice-President and Counsel; U. S. Marshal and Attorney.
- J. P. SYLVA, Jr., Secretary; formerly Cashier State Bank of San Pedro.
- E. A. NICHOLSON, Treasurer; Pacific Sash and Door Co.
- F. P. SIMPSON, Director; Mgr. L. A. Branch Brunswick-Balke-Collider Co.
- EDDIE MAIER, Director; President Maier Brewing Co.
- HARVEY CRANE, Director; formerly of Conley-Crane Building Co.
- J. W. CALDER, Director; Calder's Drug Store.
- DARRELL CONLEY, Vice-President and General Manager; formerly President Conley-Crane Building Co.

You know some of them, probably all of them, and you know they are men of integrity and ability, by whom the money of the small investor will be safely and conservatively handled.

**Buy Now While You Can at . . . . . 12 1/2c**

You need not all cash. You can pay a little down and a little each month. Just make the start, the rest will be easy.

Next Big Shows.

(Continued from First Page.)

Next at Pasadena. The friendly rival of Julian, Minge will be seen in a new production, "The Serpent of the Nile." The following week the Armstrong Company and the famous Baby Dolls will make merry in "A Scotch Highball" and for the week of July 7, Manager Walker hopes that Laurie Olivier will be sufficiently recovered from her long and serious illness to complete her engagement. This gives the Pasadena house a series of notable headliner attractions for the next month.

Next week's headliner, "The Serpent of the Nile," is described as a gorgeous revival of ancient Egypt with twelve dancing girls in support of both Laurie Olivier and of course Egypt would be incomplete without Marie Anthony. The magnitude of the production is indicated by the fact that a special car is required for the scenery and electrical effects carried by the cast.

The supporting show consists of the Mother Goose girls in characters from nursery rhymes, Ruth Chandler, Mr. and Mrs. Brown and Lewis and the "Love's Young Dream."

Coming to the Empress Theater next Monday afternoon is another episode, "Julian & Company," and seven new features, headed by the famous Hal Stephens, probably the most notable character actor on the American vaudeville stage, whose portrayals from famous plays such as "The Van Winkle," and "The Merchant of Venice" have made him a great favorite with vaudeville audiences all over America. His scenic embellishments have been tared for with the same fine detail that mark his characterizations.

Another feature will be the first appearance of this city of the "Kathal Trio," who come direct to the Sullivan & Connolly circuit from the London Hippodrome. This is a symphony of comedy that combines the elements of novelty and surprises that has made it a sensation on the continent and will no doubt make the act a subject of much comment during the next week's engagement.

The Melody Men and George E. Root will be another important and attractive feature of the new bill as should also prove Van Cleave and Denton, with their real circus music, "Pete," Vincent and Lewis in songs and characterizations; and the instrumental comedian "Broom Stick" Elliott. Exclusive of these new acts will be the comedy motion pictures.

"The Hotel Film-Plan" is proving a box-office winner this week. Jules Mandel as Pickle Hains, the proprietor, is seen at his best and he has the audience in an uproar all the time. Al Franks is running him a close second and between the two of them there is not a dull moment. Earl Hall and Francis are the "Runners" and the song, "You're the Girl" by Lord is the song hit of the show. All the numbers are well staged and the show as a whole is one of the best produced in this theater for some time. Gale Henry, Frances White and Alton Hall are very pleasing parts and their singing and dancing add much to the success of the show. Friday night will be the big boxing and wrestling night, and good boys are assured.

Announcement was made by W. H. Chase yesterday that in all probability Chase's Broadway Theater will be ready to hold the grand reopening of the theater after three weeks of darkness, during which time extensive improvements and artistic decorations have been made at an expense of many thousands of dollars.

A specially selected bill of first run pictures is being arranged for the opening in conjunction with several black-cloth musical specialties. A special feature of the improvements is an electrical clock which will flash the hour and minute to all parts of the house at any time, day or night. It looks as if the opening would be more successful than any other recent one for the house are coming in.

"The Old Maid's Contest for a Husband" at the "Mason" Theater this week, was merely on No. 5 is the last of the series, a close second. Great interest is being manifested in the contest, by the generous audience who are watching anxiously for the final count of votes. Saturday evening at 8 o'clock, the wedding ceremony will be performed, on the stage, by Judge Hammerfield.

"Why?" the photographers showing at the popular "Special Dispatch" is one of the strongest features ever presented to the public, and contains many striking scenes.

MURPHY WANTS TO STOP GAMBLING.

CHICAGO, June 18.—(Special Dispatch.) Gamblers who persist in betting on baseball games are to be denied admission to the west side ball park, unless their operations cease. President Murphy issued this proclamation today. He is determined to keep the sport clean. For years one of the private homes near the home players which has been sold to a class of sporting men who are always willing to back their judgment in dollars and cents.

Presently three men have become "loud" in their display of bills of large denominations and in some cases it has been offensive to patrons of the "game" who attend the exhibition for the sport and not for gain in financial way.

Following the action of the Philadelphia officials, when a large number of gamblers were ejected from the park on charges of gambling, President Murphy has concluded to seize this opportunity to prevent a similar occurrence in Chicago.

Accordingly he served notice today on this class of patrons. He said that if they do not stop gambling, they will not be permitted on the grounds. As the first notice from the owner of the Cubs was ignored, Mr. Murphy sent word to these speculators to the effect that every man who made a wager hereafter would be denied admission to the park in the future and that there would be no exception.

The final stage had its desired effect and the gamblers have been informed that they will be denied the right to attend all home games unless they cease their gambling operations," said Mr. Murphy.

With Margaret on second and Howard at the initial post, Matager jumped a bunt down the first-base line. This drew Litchi half way down the line toward home, leaving third uncovered. Elliott and Koesterer both went after the ball, leaving the plate unprotected as some of our leading industries under a Democratic administration. Elliott beat Koesterer and Brashers to the ball and threw to O'Rourke, retiring Matager. Margaret saw that there was nothing to stop him, so he came right on home from second. There was not a man within twenty feet of the plate. Litchi was standing half way between third and home, his eyes almost popping out of his head in amazement at the turn things had taken, and Howard, who had stopped at second, took a mean advantage of him by gunning him around to third—a station which Howard on Litchi might have looked after during Lou's temporary absence. But they too, seemed engrossed in that brand of thought

Angels Tame Tigers.

(Continued from First Page.)

way and hit to center field instead of right. Margaret knocked the ball down with one paw, and had trouble in picking it up, but that is of minor consequence as it is not at all certain that he could have prevented Mr. Bayles from scoring. Brashers took second on the hit. He got under-way for third on a contemplated hit-and-run for Hop to even offer at, and Roy was nailed. Boles to Matager, George sneaking the wide throw with his left hand with an ease and grace that comes only to those who have been trained since infancy to handle a fork.

MARGERY TRIPLER. Margaret avenged his mates with a triple just inside the left-field line in the second, and was gallantly sacrificed home by Howard. At this stage it looked like anybody's game, and the same point of view prevailed in the third.

Los Angeles scored two runs without the semblance of a hit. But Koesterer did issue two passes, and so the hits weren't missed so very much. He walked Margaret and Brashers, which is a very dangerous thing to do when dealing with gentlemen with a reputation as sprinters.

ANGELS RUN WILD. With Margaret on second and Howard at the initial post, Matager jumped a bunt down the first-base line. This drew Litchi half way down the line toward home, leaving third uncovered. ONE MINUTE APART FOR MOTORS IN BIG ROAD RACE.

Finish of the Panama-Pacific road race, Last leg of the 500-mile course. This is the boulevard stretch where the cars will make the fastest time of the entire race. From Stockton to Altamont the drivers can light it out with motors wide-open.

ONE minute apart is the time allowance for the start of the Panama-Pacific Road Race on the morning of July Fourth. The cars are to be sent away by Starter William Hume in the regular order of entry and the plan of L. T. Bennett is that all of the cars will be away from Fiesta Park before 1 o'clock.

This would send the racers out to the smooth San Fernando road in a fierce fight for the entrance of the San Francisco Canyon, where the real battle of the first leg of the course will take place. The car that enters the mouth of the San Francisco first will be the first to reach the Chandler checking station.

Umpires will be placed in the dark recesses of the deep, but they will be able to kick their heels together in solemn contemplation as far as being able to hold those flying racers down. The grade is steep. There are many fords to cross in that long, winding creek. The drivers can take Bouquet Canyon and drive eight miles more of road, but the San Francisco looks best to every driver and it is almost a cliché that each man will take that course.

All that remains now until the start of the race is the tapping off. No more speed work is to be done. The roads are to be made as safe as they ever were. Each driver has agreed to be good as he needs no more of the fast work.

SAN BERNARDINO TAKES GAME.

(BY DIRECT WIRE TO THE TIMES.) SAN BERNARDINO, June 18.—[Exclusive Dispatch.] The local defeated the Santa Barbara team in the second bout of the series today, having the victors at their mercy at every turn. Hanson pitched a great game, the visitors being unable to solve his delivery. The score: San Bernardino, 3; hits, 5; errors, 2. Santa Barbara, 1; hits, 5; errors, 2. Batteries—Hanson and Torres; Hawkins and Barth.

NINTH WINING RALLY.

LONG BEACH, June 18.—Long Beach took the second game today in the San Diego series by a close margin. The locals had the game well in hand up to the ninth inning, when the San Diego team found Young and the first six men up hit safely, adding three runs across the plate.

With the bases full, Moore went in, and fanned the first two men. Two errors allowed two more runs. Long Beach won the game in their half on a hit, an error and a single. Killeen pitched good ball for San Diego, but was replaced by Root in the ninth. Summary: Long Beach, 5; hits, 12; errors, 6. San Diego, 3; hits, 11; errors, 5.

PAT KILLS OFF ONE.

Margaret was seized with an ungovernable desire to know what O'Rourke would do with the ball if he had it, and slammed it at him. Pat was there with the bells this time, and efficiently nailed Page at the big base. Moore took second on the shot home.

Margaret started for second on the next pitch. This drew a throw from Elliott to Hop. Simultaneously Moore in out for third. Margaret retreated toward first, drawing Hop, Brashers and O'Rourke into a merry chase up and down the line. Moore crept off third, moved cautiously up the line twenty feet, and at the psychological moment started his dash for the plate. Pat happened to have the ball just then, and he threw it in a way to indicate that he had a grudge against Elliott. The play would have been close under normal conditions, but the character of Pat's heavy made it unnecessary for Ed Pinney to render any kind of a decision.

BRIGHT MISUNDERSTANDING.

Howard flicked a fly to short right. The ball really belonged to O'Rourke, but Pat didn't want anything to do with it. The result was that Matager snuffed it after a belated start. Margaret scored on the error. Matager retired the side with a fly that Carlisle snuffed to his hearing boom.

It may be said without fear of contradiction that the Tigers would have scored one or more runs in the sixth had not George Matager, Leonidas like, barred the way. Carlisle and O'Rourke singled in a genuine effort to repair the damage. The next two men were outfield out. Litchi sent the ball streaking along the surface and toward left, and you all know the velocity with which Lou can propel the sphere in that direction. Matager threw himself in the way of that streak, and showed out a well-hardened hand. The ball struck it with crushing force, and dropped dead. Matager removed it in a jiffy, jumped to his feet and got his man with a cataclysmic throw to Moore.

Here are the figures to prove the foregoing assertions:

BUD IS AMBITIOUS.

(BY A. P. NIGHT WIRE TO THE TIMES.) SAN FRANCISCO, June 18.—[By A. P. Night Wire.] "Bud" Anderson, the lightweight sensation of Medford, Ore., arrived from the Northwest this forenoon on his way to Los Angeles, where he will meet Leach Cross in a twenty-round bout July 4. Anderson's object in stopping over here is to talk over plans for an encounter with Harlem Tommy Murphy of New York in San Francisco next fall, if

The Knight Motor Supreme

Official test demonstrates beyond question the superiority of the Knight type sleeve valve motor over the poppet-valve type

A short time ago a 6-cylinder 38 H.P. poppet-valve motor of high-grade manufacture was given an official test by the Automobile Club of America in New York. It was run for 800 hours. During that time it averaged 35.7 horsepower—less than its nominal rating. At the close of the test it showed less power than at the beginning, despite the fact that valves were twice adjusted in an effort to sustain the power. This motor was of the latest and most highly improved design—but it was a poppet-valve motor.

Back in 1909—four years ago—a 4-cylinder 38 H.P. Knight sleeve valve motor was given a similar—but much harder—test. It was run on the block and on the road in a test covering 320 hours. During this test it averaged 58 horsepower—40% more than its rating. It was also driven 2000 miles on the famous Brooklands track, and after all this it showed more power at the finish than at the beginning. No adjustments were made to the mechanism of the motor at any time.

Thus every claim of the superiority of the Knight type motor has been officially and unmistakably proven by the testimony of the poppet-valve itself, and this testimony again supports the statement of the Stearns-Knight—that—

The Stearns-Knight "Four" is better than any poppet-valve "Six," and that—

The only car better than the Stearns-Knight "Four" is the Stearns-Knight "Six."

SMITH BROTHERS

742-44-46-48 SOUTH OLIVE STREET  
LOS ANGELES, CAL.

The most sensational feature of the 500-mile Indianapolis Decoration Day race was the performance of a 25 H.P. Knight-motored car, which, although by far the smallest car in the contest, ran consistently throughout, averaged nearly 70 miles an hour, and did not take oil or water from start to finish. It defeated 19 high-powered foreign and American machines, and finished fifth behind cars of far greater power.

South Coast Crises

(Continued from Second Page.)

Admission of his party which makes up the passenger list on cruises, and both the ships and the passengers will enter the race and it is expected that the trip will be a success.

Among the power boats taking the trip will be the "Yacht Newport," owned by Vice-Commodore J. L. Bolland. The cup for which the race will be contested is the "Newport Cup," which is the property of the Newport Yacht Club. The trophy is a silver cup, and it is expected that the race will be a success.

The auxiliary yacht will be the "Yacht Newport," owned by Vice-Commodore J. L. Bolland. The cup for which the race will be contested is the "Newport Cup," which is the property of the Newport Yacht Club. The trophy is a silver cup, and it is expected that the race will be a success.

AD WOLGAST IS VERY SICK MAN.

(BY A. P. NIGHT WIRE TO THE TIMES.) SAN FRANCISCO, June 18.—Ad Wolgast had a narrow escape from ptomaine poisoning on Tuesday night and as a result a trip that he had planned to Medford, Ore., has been indefinitely postponed. All last night and most of today, he was in the hands of a nurse, Mrs. Wolgast and Tom Jones were at the bedside of the former lightweight champion. He was said tonight to be out of danger.

AMATEUR WINS SHOOT.

DATON (O.) June 18.—Alden B. Richardson of Dover, Del., amateur champion of that State, won the grand preliminary handicap shoot here today, defeating a field of 311 of the best trap shooters in the country. His most formidable contender was Andy Meaders, the 73 year old expert from Nashville, Tenn., with whom he tied upon finishing the 188 targets. In the shoot off, Richardson won by 19 to

Young? Yes—the oldest Ford is just ten years young—this month. And its youngest brother is the choice of the lot—a better car than those we built not long ago and sold at nearly twice its price. Big production makes the Ford price low.

More than 275,000 Fords now in service—convincing evidence of their real merit. Runabout, \$185; Touring car, \$200; Town Car, \$240—C.A.B. Detroit, with all equipment. Get interesting "Ford Times" from factory Dept. F, Detroit; Ford Motor Company, 13th and Olive Sts., Los Angeles.
